He represents corporate policyholders in [complex insurance coverage matters](#) related to all types of policies, including commercial property and business interruption, reps and warranties, CGL, cyber, professional and fiduciary liabilities, D&O, E&O, environmental, trade credit and intellectual property. Many of these have involved some of the most pressing issues of recent times, ranging from the COVID-19 pandemic, the 9/11 terrorist attacks, the Deepwater Horizon disaster, virtually every hurricane and other major weather disaster in the last 20 years, major wildfires, the Japanese earthquake and tsunami and the opioid crisis. He is an author of the only legal treatise specifically focused on insurance coverage for catastrophe losses, having written the chapters on the Claim Process and Business Interruption, and he is currently writing a new chapter for that treatise on COVID-19 losses. Vince is perennially listed in major peer-reviewed rankings and market commentators have praised him as “a fantastic tactical lawyer.” Vince has handled matters all across the US involving events spanning the globe and has served as an expert witness on insurance law in cases in the US and Europe.
